

DDI ACTIVITY REPORT ITEM
(30 August - 3 September 1965)Issuance of CIA/OBI Map Folio on Indochina

At the request of the Director of Central Intelligence a folio of maps on Indochina was prepared by the Cartography Division of OBI. Fifteen maps were prepared on a common base and scale covering subjects such as: transportation, terrain, vegetation, industry, electric power, population, and ethnic groups. The folio maps were printed in two sizes, a large size suitable for briefing purposes, and a small size suitable for desk use. Special bound and laminated versions were prepared for the President, Director, and other high-level persons closely associated with the Indochina problem. Some of the special versions were provided with clear overlays of selected topics to enable some interchange of data from one map to another. The maps are also available individually from the Map Library.

The production of this map folio required the expenditure of almost 4000 man-hours over an eight-week period in the Division, and the support and forbearance of many other offices.
